**Summary:** Amends rules which would cause any vehicle that has been altered in height from the original manufacturer's specification with the exceptions allowed in the code to fall into the Modified Vehicle Inspection Program. Allows a station to have only one Modified Inspection Mechanic, which could be the owner. Changes the word standard to regular to clarify the sentence. Ensures that the vehicle being inspected receives both a Modified Inspection and a Regular Inspection. Clarifies how to affix the Modified Inspection Sticker emblem. Due to the change in the type of emblem being used to show the vehicle has been inspected we no longer punch the emblem, but use inserts to show the month and year of expiration.
